

Project Learning Tree Workshops 2015

Project Learning Tree is a nationally recognized activity guide that provides educators with tools for increasing student environmental awareness. Whether you are a formal educator, 4-H leader, scout leader, or home school instructor, Project Learning Tree activities will engage your students in interdisciplinary, hands-on experiences that develop skills in problem solving, critical thinking, evaluation, literacy and research. PLT supports Next Generation Science Standards and is correlated to NJ Core Curriculum Content Standards. To schedule an in-service workshop or to register for one of the following workshops, contact the NJ PLT office.

| | |
